

CERTIFICATE OF COLLABORATION

This is to certify that

Leonidas Karantzopoulos

from

1o High School of Igoumenitsa (Igoumenitsa, Greece)

has collaborated in the educational project "*The Sun at a Glance*" organized by the European Solar Telescope in the period September 2021-January 2022. The purpose of the project was to create infographics for the *EST Solarpedia*, an online encyclopedia about the Sun that will be offered to the teaching community and the general public as a free educational resource.

During this time, he led one team of students who submitted their infographic to the European-wide school competition "*The Sun at a Glance*" (www.est-east.eu/contest).

The work done included organizing the team, advising the students on the contents of the infographic, signing up for the competition, and communicating with the EST team.

Granada, 2 February 2022
