

## CERTIFICATE OF COLLABORATION

This is to certify that

**Christos Tsoumetis**

from

**1st High School of Igoumenitsa (Igoumenitsa, Greece)**

has collaborated in the educational project "*The Sun at a Glance*" organized by the European Solar Telescope in the period September 2021-January 2022. The purpose of the project was to create infographics for the *EST Solarpedia*, an online encyclopedia about the Sun that will be offered to the teaching community and the general public as a free educational resource.

During this time, he led a team of students who submitted their infographic to the European-wide school competition "*The Sun at a Glance*" ([www.est-east.eu/contest](http://www.est-east.eu/contest)).

The work done included organizing the team, advising the students on the contents of the infographic, signing up for the competition, and communicating with the EST team.

Granada, 2 February 2022

Dr. Luis Bellot  
Head of the EST Communications Office
